Explanation of Terms

Fixed Charge – Cost reflects the expense to provide and maintain metering, billing and other related operations before any energy is delivered. Required to recover the cost necessary to deliver electricity, even if no power is consumed.

Distribution Charge – Cost to deliver generated power from its source across the BREC distribution system to the meter and have adequate capacity available. Energy consumed measured in kilowatt-hours (kWh). Includes all associated costs of the local electric distribution system.

Generation & Transmission (G & T) Charge – Cost by others (not controlled by BREC) of owning, operating, and maintaining power production and transmission lines necessary to produce and transport energy to BREC. Cost of fuel, environmental regulations and taxes are included. Cost may fluctuate.
