

Understanding Your Bill

Buckeye REC

Your Touchstone Energy® Cooperative

Your Cooperative contact information is stationary for easy reference.

Billing Details & New Charges clearly shows your payment breakdowns and account balances.

Beginning Balance is your prior month's billing.
Payment reflects a credit for the previous month's bill.

Fixed Charge is a flat fee paid by every co-op member regardless the amount of kilowatt hours used. The fixed charge helps pay to provide and maintain service to the meter before any energy is delivered.

Distribution Charge is the cost of constructing, operating, upgrades and expansion of the local electric distribution system, including equipment and facilities needed for meeting residential and commercial demand and varies with kWh usage.

Generation & Transmission Charge is not controlled by BREC. This is the cost of owning, operating, and maintaining power plants and transmission lines necessary to produce and transmit energy to BREC. It also includes the cost of fuel, environmental regulations and taxes. This cost may also fluctuate from month to month.

Bar Graph shows monthly usage per billing period for the last 12 months compared to the previous years billing usage.

JUST FOR YOU:

MEMBERS' TELEPHONE NUMBERS IMPORTANT WHEN REPORTING OUTAGES - Your telephone number is very important to Buckeye Rural Electric for Outage Reporting. For example, when the 1-800-282-7204 toll free number is dialed (to report outages only), our system matches the phone number to the 911 physical location. It also provides the on-duty dispatcher with all known information about the account so repair crews can be dispatched.

IF PAYING AT A PAY STATION - please allow four working days for payment to reach us to avoid late charges. If bill includes balance forward, do not pay at pay station.

Just For You areas are important messages related to your account.
