

SOLAR POWER STEP BY STEP

STEP 1

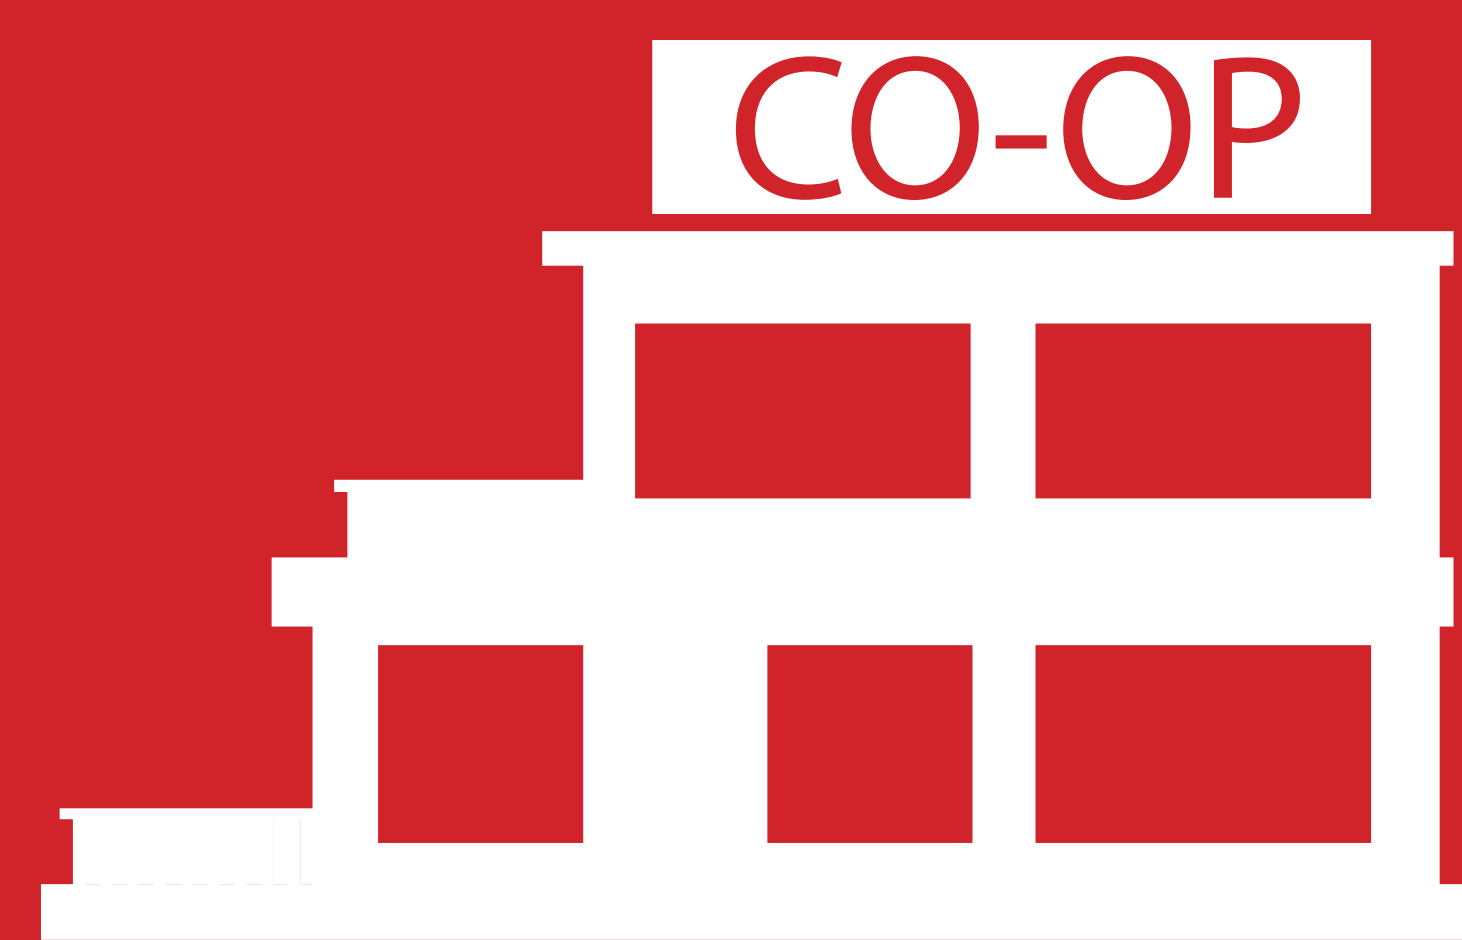

MAKE YOUR HOME AS EFFICIENT AS POSSIBLE

Efficiency measures are almost always cheaper than solar.

STEP 2

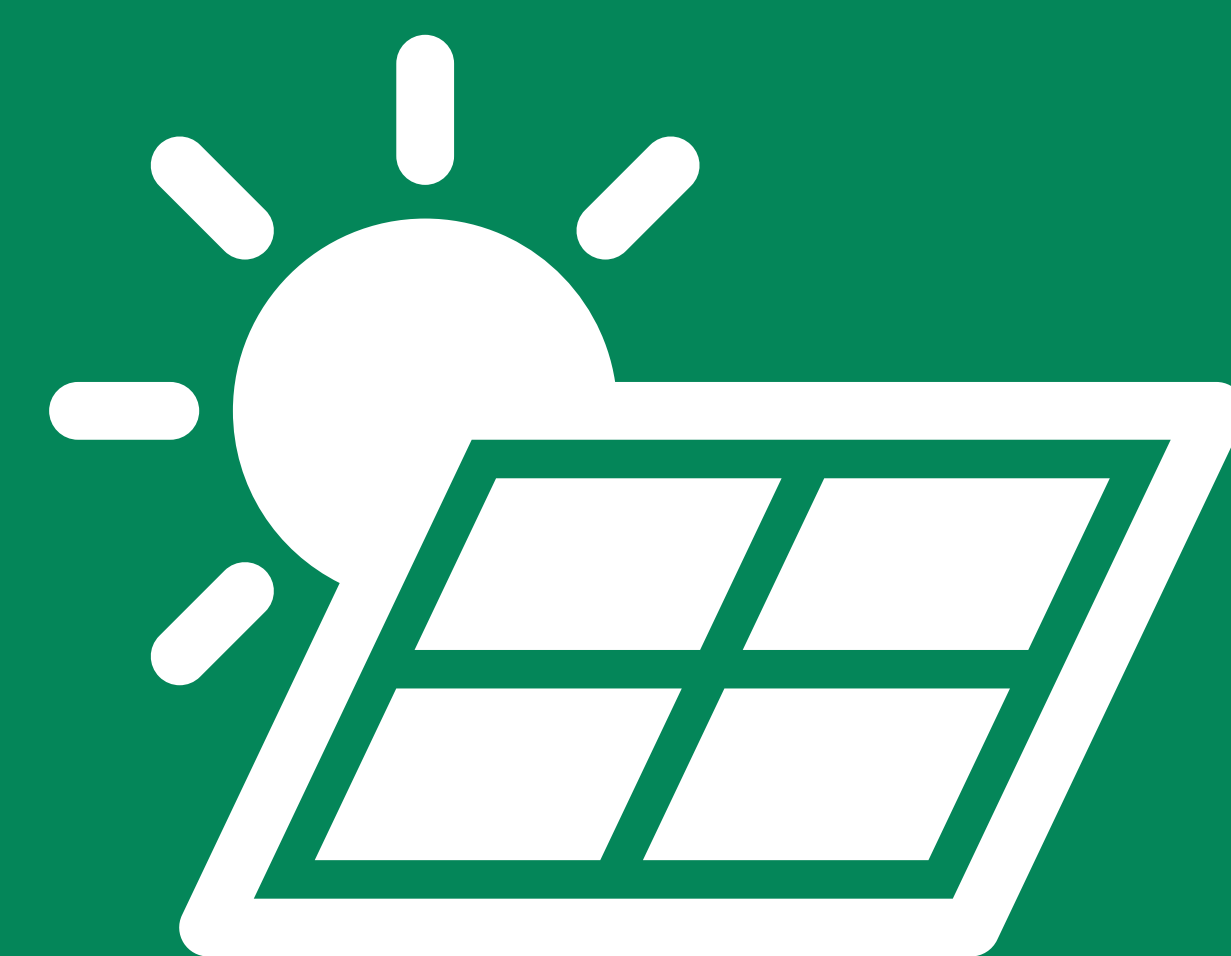

TALK TO YOUR ELECTRIC CO-OP

Does your co-op offer community solar? How will rooftop solar affect my bill?

STEP 3

DETERMINE YOUR SOLAR SIZE

*Small home: 20 panels
Average home: 35-40
Large home: 80+*

STEP 4

UNDERSTAND YOUR SHORT-TERM COSTS

*Interconnection \$
Materials \$\$
Installation \$\$\$*

STEP 5

UNDERSTAND YOUR LONG-TERM OBLIGATIONS

*Maintenance
Liability and Insurance
Taxes*
